BASE PRICE

\$5,940

Included in the Offer

Designed for homeowners who need a conversion scope from septic to municipal sewer service.

- Permit and inspection coordination (included)
- New sewer connection installation with PVC sanitary piping (included)
- New PVC water piping when included in the approved scope (option)
- Underground utility marking before excavation
- Septic abandonment per code
- Dirt backfill for trench and septic tank
- One-year workmanship and material warranty

5-Step Process

From review to closeout, DCH Plumbing helps coordinate the property-side conversion work.

1

Site Review

Confirm septic location, sewer path, water needs, and site risks.

2

Permits & Marking

Coordinate requirements and mark the work area before excavation.

3

Pump-Out & Disconnect

Pump the tank, disconnect septic, and prepare for sewer tie-in.

4

Sewer Connection

Install the new PVC sewer connection per approved scope.

5

Final Inspection

Coordinate inspections, abandon septic, and backfill with dirt.

Bahia Grass

Septic to Sewer Conversion

A clear property-side package for homeowners moving from septic to municipal sewer service.

DISCLOSURE

Promotional price reflects DCH Plumbing's average base property-side sewer/water conversion package. Base price before discount is \$5,940.00; 10% homeowner discount equals \$594.00, for an offer price of \$5,346.00. Final price is subject to on-site evaluation and may vary based on sewer tie-in distance, trenching conditions, septic tank location, water line scope, irrigation/sprinklers, landscaping, access, soil conditions, inspection requirements, and selected grass/restoration options. Price does not include city assessment fees. Depending on the property location, additional fees may apply.
